

SPEEDTM

NONIONIC SILOXANE SURFACTANT*

PRINCIPAL FUNCTIONING AGENTS:

Proprietary blend of polyether polydimethyl siloxane copolymers.....99.9%
Formulation aids considered ineffective as adjuvants 00.1%
TOTAL 100.0%

All products are approved for use under CFR 40, 180.1001(c)

* This product contains organosilicone surfactant

CAUTION KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

Before using this product, read the entire label, including the conditions of sale.

May cause irritation to skin and eyes. Ingestion of large amounts may cause mucosal irritation, dizziness, nausea and possible vomiting.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Give a large amount of water to drink. Induce vomiting. Seek medical attention immediately.

If inhaled: Remove to fresh air.

If in eyes: Flush with water for 15 minutes. Seek medical attention immediately.

If on skin: Remove contaminated clothing. Wash skin contact area with plenty of soap and water.

GENERAL INFORMATION

SPEED is a low-foaming, low-use-rate nonionic surfactant. SPEED utilizes SILQUIKTM "wicking action" to move spray solution up and down the plant for superior coverage of targeted pests. SPEED is drift retardant compatible and should be used with herbicides, insecticides and fungicides that rely on coverage as a primary method of offering control or protection.

DIRECTIONS FOR USE

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, AQUATIC, FORESTRY, INDUSTRIAL, MUNICIPAL, NONCROPLAND, ORNAMENTAL, RIGHTS-OF-WAY, AND OTHER APPROPRIATE USES.

The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using SPEED, the applicator or crops advisor must have experience with the pesticide combination, including SPEED, or must have conducted a phytotoxicity test.

Do not use SPEED in applications containing boron, as unacceptable crop injury may occur.

SHAKE WELL BEFORE USING

RATES

PER ACRE Use SPEED at 2-4 ounces per acre. In most cases, this will meet pesticide manufacturers' recommendations for .125% - .5% v/v.

OR

BY VOLUME Always use the rate of nonionic surfactant recommended on the pesticide manufacturers' label. These use rates are generally between

In the event that a pesticide, fertilizer or micronutrient label does not recommend a specific adjuvant use rate, use SPEED at the rates indicated below:

GROUND: Use 6-13 ounces per 100 gallons of spray solution.

AERIAL: Use 12-16 ounces per 100 gallons of spray solution.

MIXING

Always mix this product in accordance with the instructions found on the pesticide label concerning adjuvants.

In the absence of specific mixing instructions, fill the spray tank 1/2 to 3/4 full of desired water volume. While the water is agitating, add tank mix ingredients in the following order:

1. If foaming is anticipated, use an antifoam/defoamer, such as KNOCKDOWNTM
2. Ammonium sulfate, fertilizers and micronutrients
3. Water-soluble packets, dry flowables and dispersible granules
4. Flowables
5. Water-soluble pesticides
6. Emulsifiable concentrate Continue agitation and finish filling spray tank to desired level
7. Add SPEED to the spray solution and continue agitation.

STORAGE AND DISPOSAL

Protect product from freezing. If product freezes, warm to room temperature before use. Store in original container only and do not reuse empty container. Rinse container thoroughly, disposing of rinsate and the containers in accordance with federal, state and local regulations.

CONDITIONS OF SALE

Read the information contained herein before buying or using this product. If the stated terms are unacceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer assumes all risks of use and/or handling. Precision Laboratories, Inc. warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants and crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the Company or any other Seller for any and all losses, personal injuries or damages resulting from the use of this product shall be the purchase price paid by the user or buyer for the quantity of product involved.
